Theme this year is “High School Sock Hop”

May 5, 2024

Dear Alumni

This year the Thedford Alumni Association honors the alumni who graduated in years that ends in 4 and (starting this year after 40 years since graduation) 9. Letters were sent out to the honor class members in December asking to provide information about them after graduation. Attached is the information provided and a list of all members of the honor classes and a list of Alumni who we lost since the 2023 banquet. It happens to include the first class of Thedford, 3 students.

The theme this year was changed from “Saturday Night Dances” to “High School Sock Hop” has it has more of a high school meaning.

Connie has purchased 2 tickets to a Nebraska football game to be raffled. The drawing will be at the banquet, need not be present to win (\$10 per raffle ticket), more information at the end of the newsletter, tickets will be available at the banquet. The money from the raffle will be added to the \$250 2024 scholarship. Last year the Association gave a \$450 scholarship to Connor Cooksley. A scholarship of a minimum of \$250 will be given to a Thedford student in the class of 2024.

Meriel Romero maintains and updates the website thedfordalumni.org. She does a great job keeping the website updated, you are encouraged to visit it and comments and suggestions are welcomed. The banquet minutes are on the website for viewing and can be downloaded, also pictures from the past banquets. Meriel also started a Facebook page, “Thedford Alumni Association”, please follow it and post information about the Alumni Association.

If you have an email address, send it to thedfordalumni@gmail.com, with your current address, so emails can be used more to save time and postage. It is received by Bill and checked daily.

The Alumni was able to purchase 4 banquet tables to donate to Thedford High School and a U.S. flag and stand for the high school to display for activities, this was done by your support with donations.

This year Connie and the Alumni is working on a sign to be displayed near Highway 2, to show our proud of our Thedford High School girls track team winning Class D State Championship in 1971 and of the Sandhills/Thedford football team winning the D2 State football championship in 2023. It may not be finished before the banquet.

The Association has received memorial money from family of classmates and classmates, in memory of a Thedford alumni who passed away, we are asking for suggestions of how to remember them?

The doors will open at 4 p.m. to provide more social time before the banquet. Sign in and purchase raffle tickets, enjoy the company of other alumni.

Door prizes will be given out throughout the evening. Thanks to the merchants of Thedford for supporting the Alumni by contributing an item.

The meal will be catered by the Double T, Reta (Hardy) Teahon, main meat will be prime rib with a second choice of either chicken or pork. Entertainment and business meeting following the meal.

Alumni President, Connie Elliott, has been working hard to make the alumni banquet a fun and enjoyable time for all. The Alumni Officers look forward to a successful banquet. Hope you join us.

FOR HONOR CLASSES IN XXX4 and XXX9 (AFTER 40 YEARS) “HIGH SCHOOL SOCK HOP”

The Thedford Alumni Association has a desktop computer with a database program which holds the records of the alumni of Thedford High School starting in 1914. This year a list of all the Honor Year alumni and the written information about the alumni who provided it. If you are aware of anything on this list is incorrect, please let me know so it can be corrected. The Association relies on its members to provide updates so please send changes in alumni status to the Secretary. Information about the Association and a list of alumni is available on the web site “thedfordalumni.org”. Alumni that provided information that had to be typed, I apologize for any errors.

DONNA DARLENE	WEIL	DONNA BLUS	Became licensed Practical Nurse April 1962

Met my husband Larry Blus in 1963 while he lived in Thedford working for the Nebraska Game Commission as a research biologist. We were married in 1964.

Moved to Maryland where Larry was a research biologist for the Federal Government in 1966.

Moved to Oregon where Larry worked out of a 2-man office working until 1997.

We both retired there until our granddaughters started school, so we moved closer to them.

I worked mainly in hospitals 1962-1997 when I also retired, I have 1 son, 2 daughters and 3 granddaughters.

I recall our Class Senior Sneak trip to the Lake of the Ozarks for 5 days and having Mr. and Mrs. Carter, who had come with us, pay the state tax which we had forgotten to include when planning the trip. The buss driver got us lost so we would arrive back in Thedford at a certain time so we did not have to go to school that day.

Mr Davis Law was music director for all 4 years we were in High School. We had some great music programs and contests we traveled to. I live an independent living residence.

I hope to attend the Alumni Banquet time if possible.

seems impossible and to think that I have lived in Denver for 50 years!

Thedford was good to me growing up and I received a very good education there. Denver has been good to me since that time and I have no complaints about my life. I worked at jobs that allowed me to travel all over and even do some international traveling.

I “retired” from my last job in 2012, but I still work part-time for another company and take care of the Thedford Alumni Association website, which believe it or not is fun for me!

My husband died in 2019 as a result of MS that he had for a very long time. I enjoy my leisure time, reading, gardening and getting together with friends for lunch/dinner. Nothing too exciting these days!

I probably won’t be back for this year’s banquet, but wish everyone who does go, a good time, good food, maybe some dancing and plenty of visits!

My email is on the alumni website, if anyone wants to get in touch with me.

RANDALL	JONES	RANDALL JONES	Unfortunately, my wife and I recently

moved to Maine and June will be a very busy month for us so I/we won’t be attending.

Two weeks after high school graduation, classmate Troy Nutter and I were in basic training in San Antonio. We had both delayed-enlisted in the USAF in fall of 1973 while the Vietnam conflict was still on-going. We went our separate ways onto our next training and duty assignments and my last active duty assignment was behind the Berlin Wall from 1978-1981 as lead repair sergeant for the Electronic Security Command intelligence squadron. After receiving my undergrad in EE from Texas A&M, I was commissioned (officer) in the USAF Reserves as a Bioenvironmental Engineer and NBC Warfare Officer in 1985 and continued training while working on my Masters and Doctorate degrees from TAMI. I resigned the commission in order to complete my PhD and entered the MRI industry as a design engineer.

I married, had three wonderful kids, and divorced after 20 year. After working in the MRI industry for a few years with the Doctor of Engineering (PhD, MBA) degree, I started my own company in Omaha, grew it to become the largest independently owned MRI antenna design and repair company in the world and sold it in late 2022. Meanwhile, I met the love of my life, Melanie Paul on an airplane and have been married for 23 years and integrated our families

wonderfully and enjoy four kids and their significant others. Melanie and I still own and operate another medical device company, Bot Image, Inc. which obtained the world's first FDA cleared software for prostate cancer detection, diagnosis, and screening, We plan to further grow this business before selling to a strategic partner in the near future — and look forward to retiring in the beautiful vacation land of Maine.

After high school, I attended MIT where I graduated with a Bachelor of Science in Civil Engineering. I worked for a large architectural/engineering firm in Omaha for a few years then was a building code official in Lincoln for a short time. returned to my original employer where I worked in Honolulu, Los Angeles following the Northridge earthquake, Las Vegas, then back to Omaha.

In 1997 I joined a small structural engineering firm in Omaha where I became a partner. We provided structural engineering services for several of the major projects at the Henry Doorly Zoo. I met and married Aida. She has two children from her first marriage. They and their kids are a joy and keep us busy. We also enjoy traveling. Last year we spent three weeks visiting Aida's family in a rural area of the Philippines. I've started selling my interest in the company to a younger partner and am looking forward to retirement.
